PARAMED'S

Paramedic Backpack

SKU: EB02.017

NAD 4,895.00 excl. VAT

Weight (approx)	3,20 kg
Dimensions (approx)	31 x 47 x 22,5 cm
Capacity (Liters) (approx)	32,70 L
Material	1000D POLYESTER
Color	RED, BLACK, BLUE, GREEN
Recommended maximum content (Kg)	15,00

Pictures are only for reference. Colours may vary.

The Paramed's backpack is specifically designed for the demanding needs of the paramedic, first responder, rescue and other emergency medical personnel. Capable of housing an impressive array of essential medical equipment, the logical and compartmentalised layout of components including removable sealed pouches with transparent lids, allow contents to be located rapidly while ensuring they are adequately protected, even in challenging environments. This medium sized soft backpack includes reinforced top and side handles as well as wide padded shoulder straps, sternum strap and adjustable hip belt, providing comfort and support even when carrying a full pack.

EMERAIR

Emergency Bag

SKU: EB02.006

NAD 5,395.00 excl. VAT

Available in Tarpaulin NAD 1,200.00 excl. VAT add on

Weight (approx)	3.65 kg
Dimensions (approx)	32 x 55 x 24 cm
Capacity (Liters) (approx)	42
Material	1000D POLYESTER
Color	RED, BLUE, RED TARPULIN
Recommended maximum content (Kg)	15

Pictures are only for reference. Colours may vary.

The EMERAIR is a large format foldout bag that can double both as a backpack or adapted as a trolley bag (optional extra).

With the capacity and dedicated compartments for oxygen therapy and airway control equipment, this bag perfectly suited for emergency first responders needing to provide Advanced Life Support (ALS). A triple-leaf fold out interior provides excellent organisation with clear visibility of contents. Includes clear fronted, colour coded, zip pouches, large mesh pocket and straps for securing gas cylinders.

PARAMED'S EVO Tarpaulin

Paramedic rescue tactical backpack made of tarpaulin.

SKU: EB02.049

NAD 5,995.00 excl. VAT

Weight (approx)	4.8 kg
Dimensions (approx)	32 x 54 x 28 cm
Capacity (Liters) (approx)	48
Material	TARPAULIN
Color	RED
Recommended maximum content (Kg)	15

The pinnacle of feedback driven design, this robust and comfortable backpack includes all the features of the PARAMED'S EVO , including compartmentalised layout, removable sealed, clear topped pouches and fold out central flap.

The PARAMED'S EVO also includes a significantly increased storage capacity, additional pouches and multipurpose padded front panel with defibrillator capacity. This large soft shelled backpack includes reinforced top and side handles, wide padded shoulder straps, sternum strap and adjustable hip belt, ensuring comfort and full support even when carrying a full pack.

MINI TUBE

Small oxygen carrier bag

SKU: EB02.037

NAD 1,595.00 excl. VAT

Available in Tarpaulin NAD 1,200.00 excl. VAT add on

Weight (approx)	0.72 Kg
Dimensions (approx)	50 x 25 x 15 cm
Capacity (Liters) (approx)	15
Material	1000D POLYESTER
Color	RED, BLUE, RED TARPAULIN
Recommended maximum content (Kg)	10

Pictures are only for reference. Colours may vary.

Color

The MINI TUBE is specifically designed to store and carry oxygen cylinders of up to 3 litres. With dedicated space for oropharyngeal (OP-Tube) airway, mask and flow monitor, this bag is the perfect light weight option for conveying oxygen supplies to rescue and emergency situations. Adjustable handles that double as shoulder straps, non-slip reinforced base, and trolley securing strap provide multiple options for transportation.

For enquiries, quotations & orders: <https://www.osh-med.pro/contact-us>

TUBE

Oxygen tank bag

SKU: EB02.016

NAD 1,795.00 excl. VAT

Available in Tarpaulin NAD 1,200.00 excl. VAT add on

Weight (approx)	1,30 kg
Dimensions (approx)	65 x 30 x 22 cm
Capacity (Liters) (approx)	26
Material	1000D POLYESTER
Color	RED, BLUE, RED TARPAULIN
Recommended maximum content (Kg)	15

Pictures are only for reference. Colours may vary.

The TUBE'S oxygen cylinder carry bag has been specifically designed to carry, support and protect 5 litre compressed gas cylinders, allowing them to be easily and safely transported in the field. Built from a tough fabric with high vis bands and zip tabs, this carry bag stands out, even in low visibility environments. A quick access flap allows oxygen provision when the bag is otherwise closed, for example while moving a patient.
